MARVELLOUS AJAYI-LAWAL

Frontend Developer

Lagos, Nigeria | +234 704 702 5431 | ajayimarvell@email.com
Portfolio: olsanx.github.io | GitHub: github.com/olsanx

PROFESSIONAL SUMMARY

Frontend developer with experience building responsive, user-focused websites for businesses in real estate, energy, and trades. Proficient in HTML5, CSS3, JavaScript, Bootstrap, and React.js. Strong understanding of mobile-first design, semantic HTML, and UI best practices. Experienced in translating Figma designs into clean, functional code and delivering projects independently from concept to deployment. Currently deepening expertise in Tailwind CSS and modern React workflows.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+)

Frameworks & Libraries: React.js, Vite, Bootstrap, Tailwind CSS

Tools & Workflow: Git, GitHub, Figma to Code, Responsive Design, Mobile-First Development

Soft Skills: Attention to Detail, Independent Project Management, Client Communication

EXPERIENCE

Freelance Frontend Developer | Self-Employed, Remote | 2024 – Present

- Designed and developed responsive websites for clients in real estate, energy, and trades industries
- Translated Figma designs and client briefs into functional, production-ready web interfaces
- Managed full project lifecycle independently, from requirements gathering and design to deployment
- Implemented semantic HTML, accessibility best practices, and performance optimizations across all projects
- Maintained clear client communication and delivered projects on time with zero supervision

PROJECTS

AOS Projects – Construction Company Website | 2024

- Built a fully responsive multi-section business website optimized for desktop and mobile users
- Used semantic HTML5 to improve SEO structure and accessibility compliance
- Integrated a customer chat widget to improve communication between visitors and the business
- Technologies: HTML5, CSS3, JavaScript

Nola Energy – Business Landing Page | 2024

- Developed a conversion-focused landing page with clear content hierarchy and strong calls to action
- Ensured cross-browser compatibility and full responsiveness across screen sizes
- Applied semantic markup to support search engine indexing
- Technologies: HTML5, CSS3, JavaScript

Timilehin Oyintoke – Personal Portfolio Website | 2024

- Built a clean, minimal portfolio site with animations and micro-interactions to enhance user experience
- Structured layout to effectively present personal brand and project work

- Technologies: HTML5, CSS3, JavaScript

John – Personal Portfolio Website | 2024

- Delivered a modern portfolio with smooth layout, clear visual hierarchy, and strong performance
- Focused on readability, responsive design, and professional presentation
- Technologies: HTML5, CSS3, JavaScript

EDUCATION

Bachelor of Science, Mass Communication

University of Lagos | 2018 – 2023

ADDITIONAL INFORMATION

Available for remote frontend roles and freelance projects. Open to full-time, part-time, and contract engagements.

Strong eye for design detail with a consistent track record of delivering clean, professional web interfaces.
